I have consented to a search by Lighthouse Forensics of all data contained on a computer hard drive, cellular telephone or other data storage device, which is rightfully in my possession and under my control. This computer/cellphone is owned by me, is “marital property”, or I am an attorney representing the rightful owner; and I have a legal right to have a forensics examination performed on said device. I acknowledge that I have been informed that state and federal law requires Lighthouse Forensics to notify law enforcement authorities of any suspected child pornography found on a computer/cellphone during his examination. I also acknowledge that the device being examined will be returned in the same condition in which it was received by Lighthouse Forensics and Lighthouse Forensics will not be responsible for any repairs to said device.
